

# How to apply our water filtration system?

## ▪ Choose One Fits Your Need

### ▪ DH-R1 (Filter for replacement)

You have been using **Everpure** filters already and want to replace it with **half the price**? Then try this!

### ▪ DH-S1 (Water filtration single system)

You need to install a **whole system** and don't use water that much? Then try this!

### ▪ DH-S2 (Water filtration twin system)

You need to install a **whole system**, use it for **2 or more equipment**? Or you need to use a **pre-filter** because of bad water quality? Then try this!

### Espresso machine

: Protect your equipment from scale and corrosion damage

### Ice maker

: Produce clean, crystal clear ice and help ensure your equipment runs smoothly

### Drink fountain

: Assure consistently great-tasting beverages

### Water faucet

: Deliver consistent quality of water you drink

### Dish washer

: Save energy and keep glasses, plates and flatware spot-free
